

MEATING THE CHALLENGE

CLEAN AND CONSISTENT, BATCH AFTER BATCH

With the most conveyor belt patents for the food processing industry, Ashworth has revolutionized the future of conveyor belts. Our experts have been advising clients for decades on which belting is best for their needs, and combined with Ashworth's Factory Service, we can help ensure that your belting system will continue to operate efficiently for years to come.

SPIRALSURF®

Customize to meet individual requirements for cooling, and freezer applications.

ADVANTAGE®

Ideal for use in food processing applications where product release and sanitation is critical.

OMNI-GRID 360®

Increase capacity while minimizing maintenance and downtime in the most demanding applications.

OMNI-PRO®

The strongest, most reliable spiral and turn curve conveyor belt available on the market today.

OMNI-FLEX®

Reliable turn curve and spiral performance since 1959.

POSIDRIVE® SPIRAL

Recommended for applications where product movement is a problem, or where oils or other characteristics cause issues with Lotension drive systems.

EXACTASTACK®

Flexible self stacking belts that deliver cost-effective, high quality food processing solutions.

CLEATRAC®

The perfect food processing solution to accurately transfer products, minimize product damage, and keep your process up and running.
